

Ranjith Varatharajan

| <https://ranjithvaratharajan.com> | hello@ranjithvaratharajan.com | +91-8489130424 |

Seasoned Front-End Developer with a solid track record of nine years, specializing in crafting engaging web applications leveraging Angular (versions 2-15). While I have a comprehensive background in full-stack development, my recent roles have honed my focus on front-end technologies, leading to a refined skill set in creating intuitive user interfaces. I am well-versed in applying SOLID principles and Test Driven Development to ensure robust and maintainable code. My commitment to professional growth is evident in my enthusiasm for embracing new technologies and seamlessly integrating into diverse work environments.

Software Engineer,
Cogwave Software Technologies Pvt. Ltd., Bengaluru, Oct 2016 - Oct 2017

Software Developer,
Sivaskathi Software Services Pvt. Ltd., Coimbatore, Nov 2014 - Oct 2016

PROJECT SUMMARY

A Healthcare Project

Role : Team Lead/Angular Technical Lead
Period : Nov 2023 - Till Date
Team Size : 4 Members

Environment: WEB

The Application:

The CMA/WPD mass update module is a specialized component within the Application, serving as a SaaS solution for healthcare clients. This module streamlines the mass updating of contract records, enhancing operational efficiency for users and their clients.

Technology Used: Angular, Karma/Jasmine

Role:

As the Angular Technical Lead and front-end specialist, I spearhead the front-end development, managing a dedicated team of three. My responsibilities encompass:

1. **Task Delegation:** Assigning and overseeing tasks, providing guidance and stepping in to resolve complex issues.
 2. **Client Interaction:** Conducting demos, attending defect triage calls to address client feedback, and implementing required changes.
 3. **Quality Assurance:** Managing code reviews, commits, merges, and overseeing the build and deployment process to ensure high-quality deliverables.
- In this dual capacity, I balance team leadership with hands-on development, ensuring both the technical excellence and the aesthetic appeal of our applications.

A Banking Client (Banking Project)

Role : Sprint0 Lead/Angular Technical Lead
Period : Feb 2022 - Nov 2023
Team Size : 8 Members

Environment: WEB/MOBILE

The Application:

ICON Application is used as a SaaS for the banking clients. The module I have worked involves fund managements between the banker and its client and managing the money by investing in multiple markets across the world.

Technology Used: Angular, Karma/Jasmine

Role: As a front-end sprint 0 lead and individual contributor, my main responsibilities involved communicating with the PTL and PPO to ensure the functional document was properly understood and preparing a technical document that would facilitate the development process for the assigned developer. This role required a high degree of organization, communication skills, and attention to detail. Ultimately, my goal was to streamline the development process and ensure that the end product was both functional and visually appealing.

Time Attendance Staffing and Scheduling (TASS)

Role : Software Developer
Period : September 2018 - Feb 2022
Team Size : 6 Members

Environment: WEB

The Application:

TASS is used for registering, maintaining and scheduling healthcare employees in an efficient way. Effectively handling resources in time of critical moments and distributes the workload across all the employees.

Technology Used: Angular (5 - 11), Karma/Jasmine, C#.NET, [ASP.NET](#) MVC5

Role: I was a full-stack developer proficient with [ASP.NET](#) Web Forms, MVC, Angular, C#, and SQL Server. As a front-end software engineer, I was part of a small yet dedicated team within our Engineering Solutions Team. This team was responsible for troubleshooting client issues and delivering fixes swiftly. We collaborated closely with our Client Support and Services department to ensure the prompt delivery of fixes and to stay informed about client escalations.
